Bristol's COVID-19 Vaccination Clinic, on June 22, is the latest effort of the college's participation in the U.S. Department of Education and White House's COVID-19 College Vaccination Challenge, supporting President Biden's goal of administering at least one vaccine shot to at least 70 percent of adult Americans and to get to 160 million Americans being fully vaccinated by July 4. Participating colleges and

universities in the challenge have committed to taking three key actions to help get their campus communities vaccinated: engaging every student, faculty and staff member; organizing their college communities; and delivering vaccine access for all.

Bristol Community College is proud to join colleges and universities across the nation in committing to taking these three key actions to help get their campus communities vaccinated.
