

Faunce Corner Nutrition – brings decades of experience to the weight loss, sports nutrition, and bariatric communities

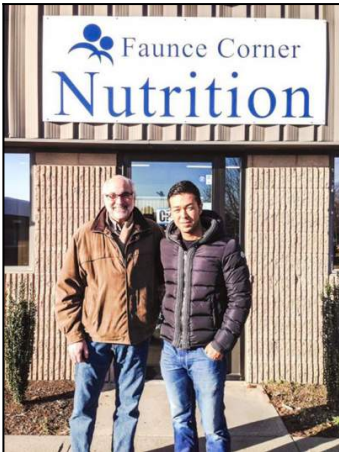

Faunce Corner Nutrition at 350 Faunce Corner Road, North Dartmouth across the street from VF Factory Outlet.

Are you one of those that hops from one diet to another? Trying any trend possible to trim off some weight? How about simply eating better or living a healthy lifestyle? Are you scheduled for bariatric surgery or have had it done already? Perhaps, you're an athlete looking to supplement your activities, whether weight training, tennis, soccer or Brazilian Jiu Jitsu?

Gone are the days when only people who were lifting weights would walk into a nutrition store. The nutrition stores of

today bear little resemblance to the one of just a few years ago. In fact, they are altogether different animals.

Marc Kaner (left) started Faunce Corner Nutrition in 1993 while following a passion of his: weight training.

Today, Faunce Corner Nutrition carries a wide variety of products supporting a range of lifestyles that go way beyond weight lifting. Faunce Corner Nutrition is a nutrition store par excellence. It's like a small supermarket with shelves and rows of protein powders & bars, vitamins, snacks, peanut butter, low calories products and more.

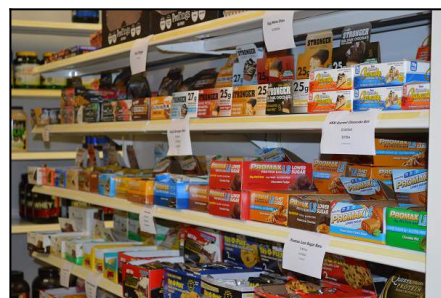

The variety is astounding. One of the great benefits from the nutrition industry broadening its scope beyond weight lifting, means a larger audience. And that translates into more brands, allowing the consumer to participate in a healthier lifestyle regardless of budget. More selections mean you can choose between an affordable product and one that's higher end, based on your needs. It's a beautiful thing.

One of the best assets of Faunce Corner Nutrition is the staff. The customer service you get from the staff here is professional and showcases their experience and knowledge.

Everyone on the staff is well versed in all of the products, particularly in serving the needs of their bariatric clientele.

Whether it involves sports nutrition, gastric bypass supplements or the Balanced Protein Diet, they not only answer your questions, but more importantly help to educate you on their products. They want to make sure that you receive the right product to meet your needs. There's a reason they've been in business since 1993!

While they have been in business for over 20 years, their combined experience goes well beyond that. I think it's safe to say that know their trade.

Just some of the astounding variety of snack and protein bars.

One of the services that I find particularly helpful is the pre-packaged Balanced Protein Diet Bundles. They have taken the guess work out of what you need to get your diet started. The Balanced Protein Diet is a self-managed diet plan that is designed combining three regular meals a day and three between meal snacks which are made up of their shakes, puddings, hot and cold drinks, soups, protein bars, snacks and more. Eating six times a day will keep you satisfied and boost your metabolism to help lose the weight.

Just walk in and tell them you want information on the Balanced Protein Diet. They'll give you a FREE copy of the

diet plan and a complete explanation of how it works. The diet plan not only helps you lose weight, but also teaches good eating habits, and you get to see and choose the products that YOU want.

Best of all, the Balanced Protein Diet products are very affordable and your consultation is free – there's no membership or upfront fees and no appointments are required. Certainly is not an industry standard!

They offer the "Select" plan which comes in 2, 4 and 8 week bundles and their "Elite" plan which is available in 2 and 4 week bundles. There are 1,200 calorie plans for women and 1,500 or 1,800 calorie plans for men. You can also purchase these products individually. They also offer an In-Store special of Buy 5 Get 1 Free on the Balanced Protein Diet line.

The very popular flagship product: The Balanced Protein Diet conveniently packaged in your choice of bundles.

You can even get your products shipped to you, so if you live a fair distance away from North Dartmouth you'll still have access to the products that Faunce Corner Nutrition carries. They have three websites and they are all simple and easy to use. Purchasing can be done right on the websites and they offer Free Shipping specials as well as In-Store Pickup.

The site also lets you browse their full inventory by category, brand, or manufacturer allowing you to go directly to what you need. Name brands like BSN, Dymatize, Nectar, Celebrate Vitamins and more. All the familiar brands you trust are stocked and they are always adding more.

And YES – if you are trying to put on weight, particularly muscle mass, you will be adequately served. The owner, Marc Kaner and manager John Otero, have been running the business together for almost 19 years. Born and raised in New Bedford, Mr. Kaner started the business in 1993 because of his passion for weight training. This vast experience and knowledge benefits not only those who are training fanatics but also in the weight loss and bariatric community.

You can read their stellar reviews [here](#) and see what other people are saying.

So, whether you want to lose weight, have had bariatric surgery, want to live a healthy lifestyle or seeking sports nutrition, you'll find a new home with Faunce Corner Nutrition. A professional, knowledgeable world class staff with a choice of products to match. Stop in and ask for John and tell him that Joe sent you!
