

Massachusetts Division of Fisheries & Wildlife to stock waterways with 65,000 trout for Fall

"We're stocking over 65,000 trout statewide this fall!

Surface water temperatures and stream flows have been unseasonably high this September. Our biologists are closely monitoring water temperatures and levels, and will begin stocking as soon as conditions improve. Get updates: [Mass.gov/trout](https://www.mass.gov/trout).

When stocking begins, locations will be updated daily on the map here. Click any point on the map for more information. Don't forget your fishing license—buy online at [MassFishHunt](https://www.mass.gov/massfishhunt)."
