

Massachusetts State Police K-9s “Neutron”, “Koala” on POTUS protection duty on Nantucket

“Neutron and Koala from our Bomb Squad were feeling the Christmas spirit this morning during a break on #Nantucket.

Massachusetts State Police assets are on the island as part of the #POTUS protection mission. We have assisted United States Secret Service in such missions for all recent Presidents.

Our Bomb Squad is part of our Fire and Explosives Investigation Unit, which is based at our partner agency Massachusetts Department of Fire Services.”-Massachusetts State Police.
