

Massachusetts State Police, local police, rescue woman after being assaulted, abducted

"The search for a violent male suspect wanted for domestic assault began on June 21st.

Starting in Billerica, the suspect allegedly assaulted and abducted a woman. The Massachusetts State Police were able to respond to the incident and assist local police. Our members were able to follow the suspect's vehicle which stopped at Alewife Parkway in Arlington. There, Troopers secured the abducted woman, who remained unharmed.

The suspect set off on foot, heading towards Route 2. Our members, many of whom are K-9 units, began canvassing the area for the suspect. K-9 units, which deploy on hundreds of missions a month and are a vital asset to the team, were used to maximize the efforts to find the suspect.

At this time, our members remain diligently involved in the ongoing investigation." -State Police Association of Massachusetts.
