

Mattapoissett Fire Rescue respond to structure fire on Post Road

“WORKING SMOKE ALARMS ALERT OCCUPANTS OF FIRE:

Early this morning Chief 1, Engine 1, Engine 2, Engine 4, and Rescue 1 responded to a structure fire on Hitching Post Road.

The first due crew (E-1) found fire on the first floor of the home and mainly inside a wall. The fire was quickly contained and knocked down before it could extend to any other levels of the home.

Homeowners were woken up to the sound of a smoke alarm and quickly found smoke inside the home. Luckily, the alarms were working and the fire was found before it was much worse.”
