

New Bedford police warn of people breaking into unlocked cars

From the New Bedford Police Department's Facebook page:

"We have received reports of several auto breaks in the last few days, with items stolen, and in all cases, the doors were UNLOCKED. Please everyone: Lock your car doors! Car theft is generally a crime of opportunity and many thieves check door handles and move on if the vehicle is locked. So lock out those thieves! It's just a click of the remote."
