

'Open Studio Night' to feature local craftsmen and artisans during AHA!

Special art event: Open Studio Night during AHA! Thursday, December 12

The newest art studio to open in the city is having an 'Open Studio Night' to show off world class talent, right here in New Bedford and as a way to introduce themselves to the community. Located at 127 Rodney French Blvd, above the Furniture City building where the COLO COLO GALLERY is now are a variety of skilled crafts-folk: a copper artist/smith, a media design artist, a print press artist, a home decor artist, amazingly talented painters, and a

photographer/designer.

The special event takes place on Thursday, December 12 while downtown is hustling and bustling during AHA! night. All of the artists are working hours into the night to have amazing work to display and sell.
