## Westport Fire Department respond to overnight car versus fire hydrant accident

"Westport Fire and Police responded to a motor vehicle crash around 3 am last night near the Fall River/Westport line.

The vehicle involved sheared a hydrant from the grid resulting in flooded roadways in the area.

The Fall River Water Department was able to make the necessary repairs, which involved flushing various hydrants along the Route 6 corridor into Westport this morning. Repairs have been made and the flushing is complete." -Westport Fire Department.
