

Westport Police, Fire Departments respond to 2 simultaneous, separate motor vehicle crashes on Rt. 6

“Recently, Westport Police and Fire responded to two separate motor vehicle crashes on Route 6, both of which occurred simultaneously.

The crashes, which were unrelated to each other, involved injuries and a large fuel leak.

The on duty crew was assisted by off duty members who responded to the station to grab an additional ambulance and respond to one of the scenes. Fall River EMS also responded to the crash to assist.

We thank our on and off duty members for stepping up and proving once again that your Westport Firefighter/Paramedics are always there when you need them.”-Westport Fire Department.
